DETAILED ACTION

Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 83-86 and 96-99, drawn to a method and apparatus for providing a reminder when a program is available for rent, classified in class 725, subclass 58.
 - II. Claims 87-90 and 100-103, drawn to a method and apparatus for providing a reminder when a program is no longer available for rent, classified in class 725, subclass 58.
 - III. Claims 91-95 and 104-108, drawn to a method and apparatus for visually associating elements to a list, classified in class 345, subclass 769.
- 2. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention III has separate utility from inventions I and II such as the ability to graphically/visually associate elements within a particular list to a plurality of icons. The "respective video presentation lists" are not necessarily associated with a "reminder list". Invention I has separate utility from Invention II and III wherein a list of video presentations that are not currently available for rent are presented and the user has the ability to create a reminder for when these videos are available. Invention II has separate utility from Invention I and III wherein a list of video presentations are presented and the user has the ability associate a program with a reminder list in order to remind the user when the selected video presentation will no longer be available. See MPEP § 806.05(d).

Application/Control Number: 09/693,784

Art Unit: 2614

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

3. A telephone call was made to Jeffrey R. Kuester on 19 January 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott Beliveau whose telephone number is 703-305-4907. The examiner can normally be reached on Monday-Friday from 9:00 a.m. - 6:30 p.m.

Application/Control Number: 09/693,784

Art Unit: 2614

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John W. Miller can be reached on 703-305-4795. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9314.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-HELP.

SEB January 19, 2004
